

Ali Mohammad

Front-End Web Developer

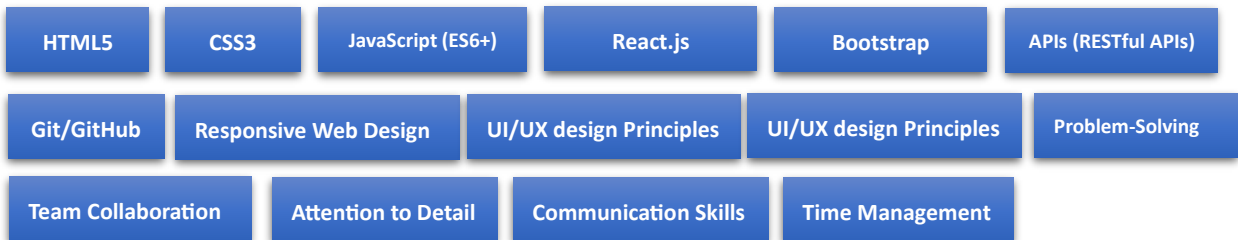

Summary:

I am a front-end web developer and civil engineering student, driven by ambition and a passion for continuous learning.

During my internship at Focal X, I gained solid experience in developing web applications using HTML, CSS, JavaScript, and React.js, and learned the importance of teamwork and cross-functional collaboration to achieve outstanding results. I possess a strong background in designing interactive websites and optimizing performance, with proficiency in tools like Git and Bootstrap.
